Digital Checkpoints

Artificial Intelligence

"Artificial intelligence is not only changing our private life but is also supporting us in our day-to-day activities in multiple areas, such as finding relevant information faster, avoiding errors in repetitive tasks, and discovering new possible solutions."

Customer Benefits

- Improve quality
- Improve speed
- Improve communication
- Get new solutions

We are

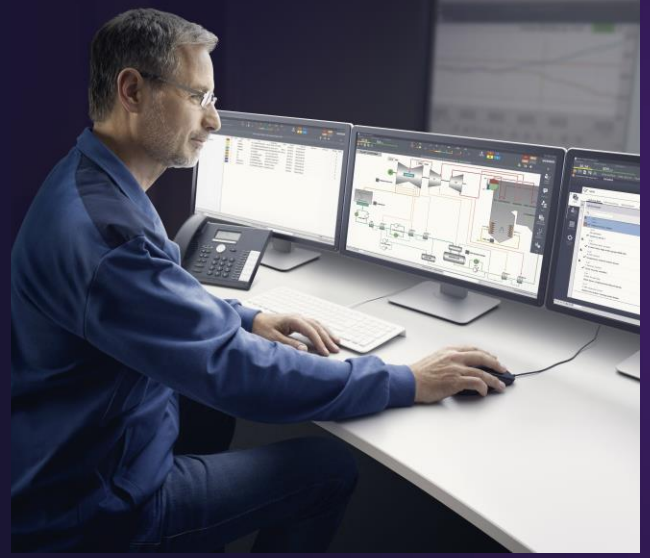

Digital Integration

AI products and services for the present and for a better tomorrow

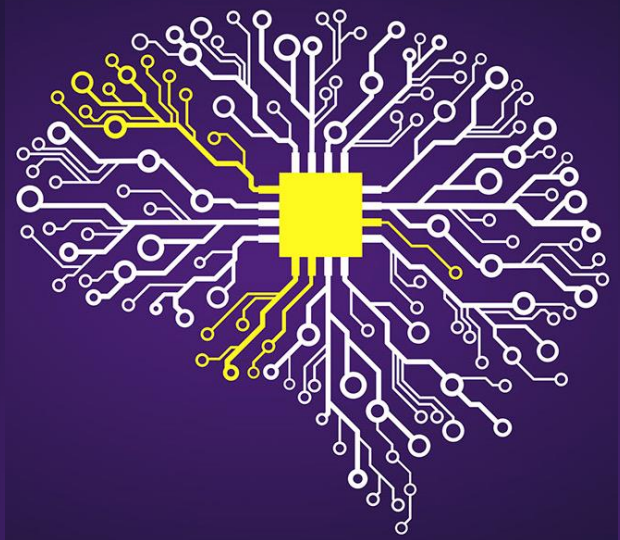

Generative AI to interact with documents

Machine Learning + OCR to extract information of technical documentation

Big picture: development of an AI assistant

Machine Learning for optimized parts design

Remote Diagnostics: optimization of running turbines
