Press release

Munich, June 14, 2021

Dr. Robert McAnally will be appointed Senior Vice President Treasury & Corporate Finance for Siemens Energy

Effective September 1st, 2021, Dr. Robert McAnally will be appointed Senior Vice President Treasury & Corporate Finance for Siemens Energy. He will report directly to Chief Financial Officer Maria Ferraro. Dr. Mark Roemer will leave the company by mutual agreement by the end of the year and will support the onboarding of his successor in an advisory role.

“We are pleased to welcome Robert to Siemens Energy for this enormously important role. He comes with a wealth of experience in Finance and Treasury with a background originally as an engineer. I look forward to our collaboration and wish him all the best in his new role,” says Maria Ferraro. Adding: “As a company we aim at shaping the energy transition and ESG is at the core of our strategy. We appreciate that it also plays an increasingly important role for financing and Robert is joining us from an industry has dealt with ESG requirements for a long time.”

Robert joins Siemens Energy from Associated British Foods plc, a global retail, food, ingredients, and agriculture business headquartered in London where he was group treasurer. He has had responsibility for all essential treasury duties, including bank and rating agency management, credit risk management, interest rates, FX and commodity risk management, capital structuring and dividends. He also worked closely with pension as well as insurance managers to devise the pension and insurance schemes.

“I would like to thank Mark Roemer especially for his outstanding achievements in successfully preparing the spin-off of Siemens Energy, building the treasury and corporate finance organization and establishing our financial infrastructure including the diversified group of relationship banks. I wish him all the best for his further professional career,” says Maria Ferraro.

Siemens Energy is one of the world's leading energy technology companies. The company works with its customers and partners on energy systems for the future, thus supporting the transition to a more sustainable world. With its portfolio of products, solutions and services, Siemens Energy covers almost the entire energy value chain – from power generation and transmission to storage. The portfolio includes conventional and renewable energy technology, such as gas and steam turbines, hybrid power plants operated with hydrogen, and power generators and transformers. More than 50 percent of the portfolio has already been decarbonized. A majority stake in the listed company Siemens Gamesa Renewable Energy (SGRE) makes Siemens Energy a global market leader for renewable energies. An estimated one-sixth of the electricity generated worldwide is based on technologies from Siemens Energy. Siemens Energy employs more than 90,000 people worldwide in more than 90 countries and generated revenue of around €27.5 billion in fiscal year 2020. www.siemens-energy.com.
