Siemens Energy secures investment grade rating from Moody's

Siemens Energy AG has received an investment grade rating of Baa2 with a positive outlook in its inaugural rating from Moody's Ratings (Moody's).

In its rating, Moody's noted Siemens Energy's leading market positions, its broad geographic and product offering, the positive long-term market fundamentals alongside a growing order backlog and its strong liquidity profile and conservative financial policy.

Maria Ferraro, Chief Financial Officer of Siemens Energy AG, said: "We welcome Moody's rating assignment as a clear recognition of the significant progress Siemens Energy has made in the past two years in improving margins, strengthening cash flow and reinforcing its financial position. The rating enhances our financial flexibility and supports our ability to drive future growth from a position of resilience."

Having multiple investment grade credit ratings strengthens capital market trust in Siemens Energy's financial stability, affirming the company's creditworthiness across independent rating agencies.

Siemens Energy is a trademark licensed by Siemens AG.

Siemens Energy is one of the world's leading energy technology companies. The company works with its customers and partners on energy systems for the future, thus supporting the transition to a more sustainable world. With its portfolio of products, solutions and services, Siemens Energy covers almost the entire energy value chain – from power and heat generation and transmission to storage. The portfolio includes conventional and renewable energy technology, such as gas and steam turbines, hybrid power plants operated with hydrogen, and power generators and transformers.
Its wind power subsidiary Siemens Gamesa makes Siemens Energy a global market leader for renewable energies. An estimated one-sixth of the electricity generated worldwide is based on technologies from Siemens Energy. Siemens Energy employs around 101,000 people worldwide in more than 90 countries and generated revenue of €34.5 billion in fiscal year 2024. www.siemens-energy.com
