First-Time Login

If you are logging to One Supplier Portal for the first time, your account needs to be activated.

1 Access OSP

- On the **Go-Live date**, you will receive an email from ias@notifications.sap.com containing an OSP platform **account activation link.** Please make sure to check your **inbox** and **spam folder** in case the email is filtered.
- Before you click the link, please ensure you have installed a **Multifactor Authentication (MFA) application** (e.g. MS Authenticator). You will need this app to scan the QR code within the application (not using the phone camera). This step is essential for setting up your account. For logging into the platform onwards you can then choose also e-mail as two-factor authentication method.

SIEMENS energy

Dear ,

An account has been created for you. To activate your account for OSP, click the link below. For the next step you will need an Authentication application (e. g. MS Authenticator) to scan the QR code or enter the security key in the application. Please do not scan it with your smartphone camera, the Authentication application is essential for proceeding with next steps.

Click here to activate your account

If the link above is not displayed or does not work, copy and paste the link below to the address bar of your browser.
